YONSEI

Guide for using wireless internet service

Windows 7, 8

Windows 7, 8

For on-campus users

Pre-configuration is required for Wi-Fi access.

■ Connection Procedure

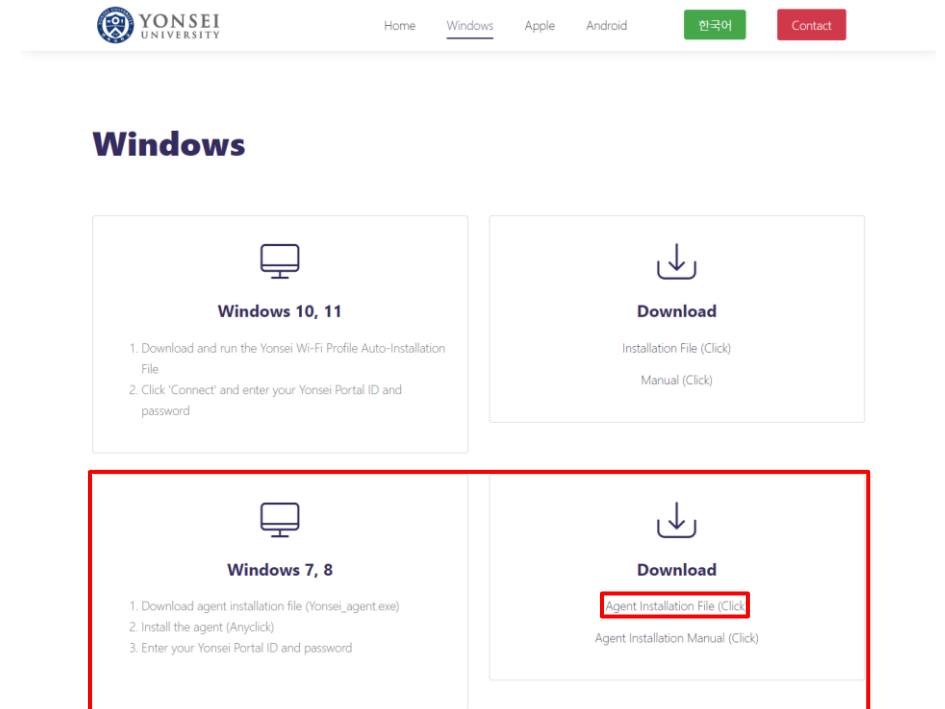

- ① Select "Yonsei_Setup" as the wireless internet name (SSID).

Windows 7, 8

■ Connection Procedure

- ② After accessing "[Yonsei_Setup](#)", open a web browser such as Chrome or Edge.
- ③ Click on the "[Agent Installation File](#)" through the page that automatically connects when you access it, and download it.

The screenshot shows the Yonsei University website's Windows setup page. The header includes the Yonsei University logo, navigation links (Home, Windows, Apple, Android), and language/contact buttons. The main content area is titled 'Windows' and contains four cards. The first card is for 'Windows 10, 11' with instructions to download and run the auto-installation file. The second card is for 'Windows 7, 8' with instructions to download the agent installation file, install it, and enter the portal ID and password. The 'Agent Installation File (Click)' link in the Windows 7, 8 card is highlighted with a red box. The third card is for 'Download' with links to the installation file and manual. The fourth card is for 'Download' with a link to the agent installation file and manual.

※ In order to use wireless internet,
you need to install the agent program on
Windows 7 or 8.

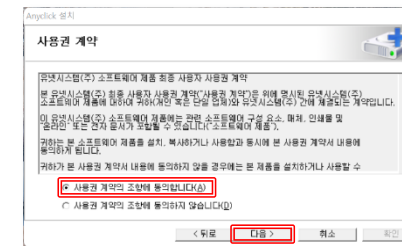

Windows 7, 8

■ Connection Procedure

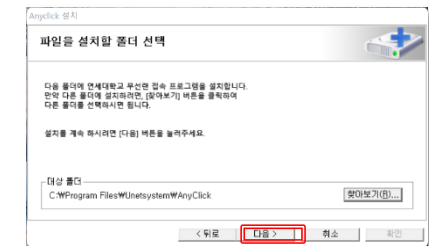

④ Install "Anyclick Agent".

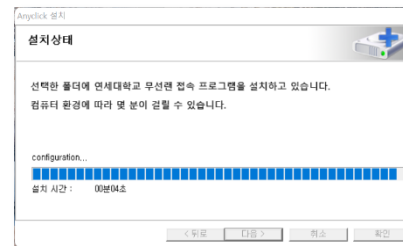

①

②

③

④ Installation in progress

⑤ Installation complete

Windows 7, 8

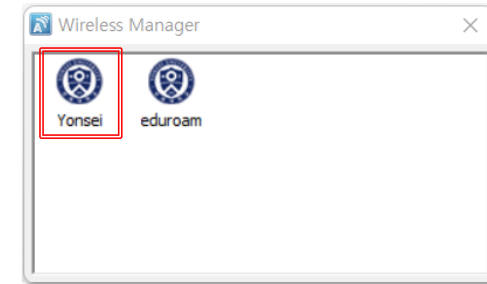

■ Connection Procedure

- ⑤ Run "Wireless Manager".
- ⑥ Log in using your Yonsei Portal ID and password.

* If authentication fails due to PC firewall/antivirus software, please disable the firewall and try again.

① Run 'Wireless Manager'

② Double click 'Yonsei'

③ Enter your Yonsei Portal ID and Password

④ Wi-Fi connection completed

Windows 7, 8

For non-degree program participants and external users

Pre-configuration is required for Wi-Fi access.

■ Connection Procedure

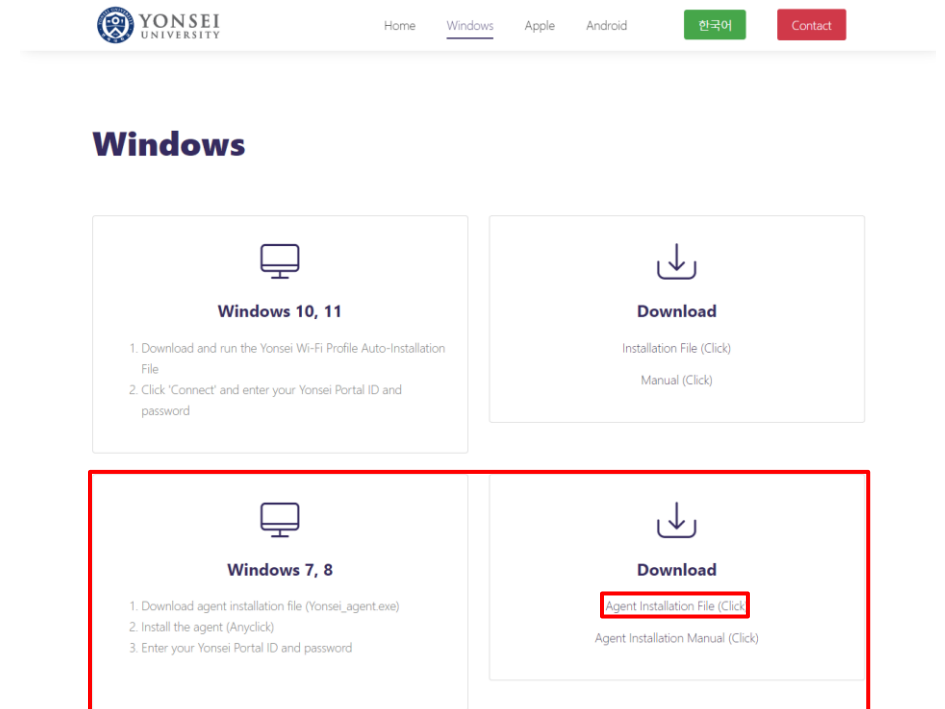

- ① Select "Yonsei_Setup" as the wireless internet name (SSID).

Windows 7, 8

■ Connection Procedure

- ② After accessing "Yonsei_Setup", open a web browser such as Chrome or Edge.
- ③ Click on the "Agent Installation File" through the page that automatically connects when you access it, and download it.

The screenshot shows the Yonsei University website's Windows setup page. The header includes the Yonsei University logo and navigation links: Home, Windows (active), Apple, Android, 한국어, and Contact. The main content area is titled "Windows" and contains four cards. The top two cards are for "Windows 10, 11" and "Download". The bottom two cards are for "Windows 7, 8" and "Download". The "Windows 7, 8" card lists three steps: 1. Download agent installation file (Yonsei_agent.exe), 2. Install the agent (Anyclick), and 3. Enter your Yonsei Portal ID and password. The "Download" card for Windows 7, 8 has a red box around the "Agent Installation File (Click)" link. The "Download" card for Windows 10, 11 has a link for "Manual (Click)".

※ In order to use wireless internet, you need to install the agent program on Windows 7 or 8.

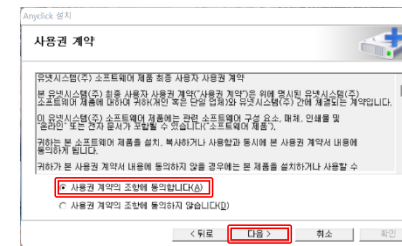

Windows 7, 8

■ Connection Procedure

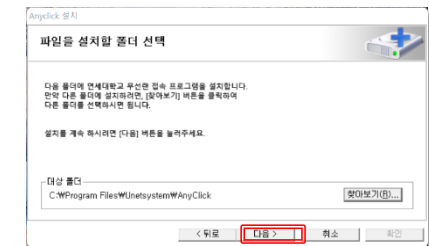

④ Install "Anyclick Agent".

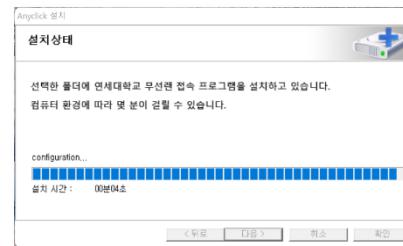

①

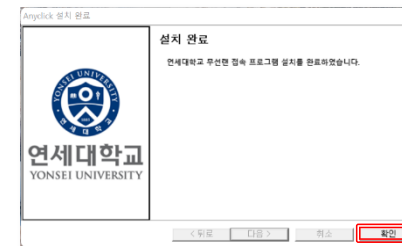

②

부여 받은 사용자 계정 입력 →

When you first authenticate, a user password change window will appear.

Please enter your desired password and click the confirm button.

After that, please use this password to authenticate.

Windows 7, 8

※ If authentication fails due to PC firewall/antivirus programs, please disable the firewall and try again.

Wi-Fi connection completed

**If you still cannot connect to Wi-Fi using the "Yonsei" SSID
even after following the manual,
please contact Team of Communication Network.
